Years 10-12

Kelvin Grove State College

The Pursuit of Excellence With All Our Might

Senior School Campus

At Kelvin Grove State College we promote the concept of excellence in teaching and learning. Students are provided with opportunities to excel within academic, excellence and vocational areas. We focus on collaboratively working to improve student engagement and to optimise student potential, allowing a focus on the importance of lifelong learning.

In the Senior School we aim to:

- Engage students in their learning to ensure depth of knowledge and depth of understanding;
- Celebrate student achievement and success; and
- Value each student as an individual.

Our aim is to provide improved educational outcomes for all students by focusing on each individual student's aspirations. This is accomplished through a Three Year Senior Curriculum, which caters for each student's specific needs through our academic curriculum, acceleration courses, university units and vocational pathways. Students are provided with guidance to map their three year journey.

Furthermore we believe in providing students with multiple pathways that enhance learning and employability. Flexible delivery is the key to these multiple pathways and we accomplish this through the tertiary links, enrichment courses and industry mentors; structured work placements; traineeships and apprenticeships.

Curriculum

Our Three Year Senior Curriculum Assessment gives students the opportunity to start accruing points towards their QCE in Year 10. It also gives students the opportunity to accelerate their senior program, enabling them to begin tertiary studies early.

Year 10 is aimed at providing rich and challenging learning, specific to either preparing students for a tertiary bound pathway or a Vocational Education and Training (VET) pathway.

QUT, Griffith University and University Queensland courses are available for students to begin in Year 12.

Flexible timetabling is designed to allow students to access afternoon classes and off campus studies.

Key features of the Senior School Campus

- Three year senior
- A broad academic curriculum which includes accelerated learning programs
- Tertiary study options during senior years
- Academic excellence programs in Art + Design
- Specialist professionals, trainers and coaches delivering Ballet, Football, Tennis, Golf and Volleyball Excellence programs
- Personalised programs leading to multiple career pathways
- International Student Program
- School based Traineeship/Apprenticeships
- Structured work placements
- Wide range of personal, academic and vocational support systems
