International Student Program

In Partnership with Education Queensland International
**General Information**

Kelvin Grove State College (KGSC) is only three kilometres from Brisbane City’s CBD. The college is convenient to public transport, adjoins the Kelvin Grove Campus of Queensland University of Technology and is adjacent to Kelvin Grove Urban Village. The College has three campuses - Junior, Middle and Senior and students from over 150 schools enrol each year.

KGSC welcomes students from Brisbane, Queensland and countries from around the world. We are proud of our long history of educating international students.

Having one of the first International Student Programs accredited by Education Queensland International means we have well established, effective support structures for overseas students, both at school and with homestay families. Our college has the highest level of accreditation with Education Queensland International (Government).

With the college’s proven history and strong partnerships with Queensland Universities, our students are excelling in Engineering, Science, Maths, Technology and Design, Visual and Performing Arts. KGSC is a progressive college that looks forward to the future.

It is our people; our happy students, our friendly families and our highly qualified staff who make the difference at our college and are our greatest strength.

**English Language Support**

Kelvin Grove State College supports all students from non-English speaking backgrounds (NESB). Our teachers and our teacher aides are available and happy to assist you every day. Assistance will also be available in the form of extra tutorials which may occur outside normal school hours. In addition, ESL support staff will aid students in the preparation, drafting and presentation of assignments.

Our staff speak a number of different languages and together with the College’s Counsellor, School Nurse and Youth Worker, there is always someone available to assist you with any issue you may encounter.

Our homestay providers will provide accommodation, meals and family support for their homestay student. The college also has two full-time Homestay Coordinators who are available at all times to provide students with help and guidance. Our college Executive Principal welcomes and enjoys talking to and meeting all family members of our International students when they are in Brisbane.

**International Students Program and Homestay**

Living in Australia will be different to living in your own country with your own family. We want students to be happy and comfortable and to be treated as a respected member of their homestay family. KGSC places students with caring, responsible homestay families that have taken part in an accredited homestay program.

Our Three Year Senior Curriculum (Year 10, 11 and 12) gives students the opportunity to start accruing points towards their Queensland Certificate of Education in Year 10. It also gives the students the opportunity to accelerate their senior program which enables them to begin tertiary studies early.

**Senior School**

Our Three Year Senior Curriculum (Year 10, 11 and 12) gives students the opportunity to start accruing points towards their Queensland Certificate of Education in Year 10. It also gives the students the opportunity to accelerate their senior program which enables them to begin tertiary studies early.
