2022 Achievements

Following on from a sensational 2021 season; 7 Grand Final wins, 26 Met North Football Representatives and 8 QLD Representatives our Football Excellence students are showing no signs of slowing down!

A number of our Football Excellence students are experiencing some Met North success. We had 8 of our Year 7 students selected in under 10-12 Met North Football team after competing at the regional trials. They will all compete at state titles in Wynnum at the end of July this year.

We also had 9 students from Years 8-12 who went to Cairns representing Met North at the girls 13-15 years and 16-18 years State Titles for Football. All girls will be striving for a Queensland spot in their respective age groups.

We had 2 Year 11 students and 1 Year 12 student selected to attend the Commonwealth Bank Junior Matildas training camp at the AIS in Canberra. This is a squad comprised of girls born in 2005 from QLD, NSW, VIC, SA and Tasmania.

Following on from our Football Excellence girls success in attending the Junior Matildas training camp at the AIS, we had a Year 11 student invited to the Junior Matildas training camp in Adelaide.

Some of our top performing students are in the Queensland Academy of Sport Open age group – Future Matildas program and the Brisbane Roar NPL Men's team. We also have excellence students in the Brisbane Roar Academy.

Our sporting excellence programs are among the top sports programs in the country, in terms of currency, program components, success and student achievement and this year we were very excited to enhance our industry collaborations and connections and partner with the Brisbane Roar Academy and launch a Brisbane Roar Academy Skills Training Centre at the college. This is a community-based program for all kids aged 8 - 12 who wish to improve themselves as players (boys & girls). The aim is to add to what they're already doing in their local club or school environments.
