

# Get wise to the BYOD Program for smarter schools

**The savvy solution for schools that helps prevent square-peg-round-hole fumbles with your student technology.**

**We design your BYOD program with you, your parents purchase the devices direct from us, and we do everything else**

All parents want to equip their children with the latest and greatest technology available for learning. However, affordability and finding the devices that meet a school's specific ICT processes and curriculum requirements can cause headaches for both the school and parents alike.

That's where a professionally structured and managed Bring Your Own Device Program (BYOD) can make a world of difference.

**Thankfully, JB Hi-Fi Education's BYOD is as easy as pi(e)**

JB Hi-Fi Education's BYOD is the no-nonsense way to ensure education-specific technology that's compatible with your students and your school.

Education pricing means great value. Extended Warranty and insurance options facilitate consistency of learning, whether at home or in the classroom.

## Why choose JB Hi-Fi Education?

Take confidence in knowing one of the largest, most established and constantly evolving technology suppliers in Australia – with 21 years specifically in the education sector – is helping you make the right decisions.

We're committed to supporting education to achieve more with the largest range of education-specific devices and services, commercial pricing, a dedicated team of Education experts, a portal for easy procurement and support, and a nationwide network for timely fulfilment.

**“Having an established BYOD program and a great relationship with JB Hi-Fi Solutions has meant that the transition to remote learning has been straightforward – I feel that we were ready for it.”**

Natalie Heath, eLearning / ICT Leader, Eltham High School

## Benefits for your school

- **Educate beyond expectations**  
Give students, educators and staff the tools that inspire engagement, learning and achievement.
- **Simplify IT procurement and management**  
Focus on what matters most – education – while we manage device procurement, deployment and support.
- **Keep pace with technology**  
Deliver the best education experience with technologies for today and the future.
- **Reduce parent workload and stress**  
Know that your parent community is getting reduced run-around, increased affordability and compatible equipment.

## Benefits for your parents and students

- **Learn where and when you need to**  
Enjoy technologies that work seamlessly and securely in the classroom, on the go and at home.
- **Embrace the future**  
Engage in learning through the latest technology and arm your students with the skills for tomorrow's workforce.
- **Confidence and continuity**  
Know that you're getting tech designed for education, priced for great value and supported by our nationwide team of Education experts.

## How does our BYOD Program work?

### Step 1

Start by connecting with our education experts who listen to your unique requirements and then partner with your educators and IT team to design a BYOD Program with your school's pedagogy and device specifications in mind.

### Step 2

Once the equipment and accessories have been identified, we'll create a code that you can pass to parents to log in to your school's BYOD program via our online portal.

### Step 3

Your parents peruse products and purchase with the assurance the devices in your account are fully compatible with your school's device specifications and curriculum requirements.

### Step 4

All aspects of the purchase – from orders and payment to delivery and tech support – are handled by us, so you just concentrate on educating your students.

Our portal is also stacked with resources for getting the most from the BYOD Program including insurance and warranty claims, and other FAQs. Parents also have the option to pick up from the participating JB Hi-Fi retail store of their choice.

Once it comes time for your students to upgrade their devices, we revisit and update the BYOD Program with you and make the necessary adjustments for new purchases.
